

Välenbadetscamping

Well-being rules at the campsite.

The following well-being rules are for your and other guests' comfort. We hope that these will make you have a wonderful stay at our campsite.

- Camping vehicles must be parked on the designated plot.
- It is only permitted to have one motor vehicle per camping site or rented cottage.

Occasional visitors to resident guests are asked to park their vehicles in the parking lot outside the area.

Dogs and cats are warmly welcome guests with us, but they must always be kept on a leash and rested outside the camping area.

- Respect others' desire to be at peace. Vehicle traffic on the camping area may only take place between the area's entrance and the own camping site / cottage.

- Keep order within the rented camping site / cottage for your and others' comfort.

Greywater must not be stored in open containers or discharged directly to the ground. This must be emptied during the latrine emptying.

- The usual radio alert applies in the area. This means that any speaker devices must have a low volume during the day and be switched off between 00:00 - 07:00.

- Ball games, frisbee games and the like may only be performed on activity areas intended for the purpose. Firearms and darts are not allowed.

- Car or camping vehicle washing must not be carried out on the campsite.

- Sales or other business activities may not be conducted within the camping area, for exceptions a special permit is required.

Residual waste in a knotted bag is placed in designated containers. Bulky rubbish such as garden furniture, tent equipment, electrical equipment, batteries and the like are referred to the municipality's environmental stations.

- We all help to take care of nature. Pick up your rubbish and throw it in the nearest rubbish bin.

- The campsite and its staff have no responsibility for your belongings. Damage that occurs at the campsite, materials or other guests' belongings is compensated by the pest.

- Clean your plot / cottage properly on departure.

- On each individual camping site, a maximum of 2 tubes of size P11 / PA11 / P10 may be stored.

- Connection to our electrical network may only be made with an approved electrical cable of type A07BB or H07RN-F or equivalent with at least 3 x 2.5 mm² conductors. If you have a cable on a reel, be sure to roll out the entire cable to avoid hot running.

- If the well-being rules are not followed, the staff has the right to expel you and your belongings from the camping area.

A warm welcome to our campsite.
